

PROFESSIONAL PAVEMENT PRODUCTS'

Medallion Product Line

Professional-Grade Pavement Maintenance and Marking Products

GOLD SERIES

Proven Performance and Durability

BLACK SERIES

Superior Performance and Durability

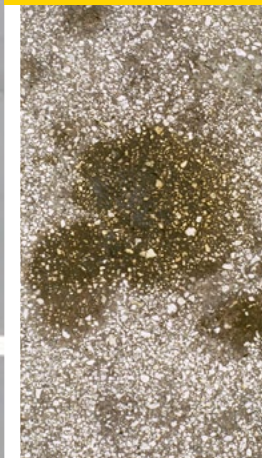

BLACK SERIES

Sealer Additive

- Decreases dry time
- Reduces tracking and power steering marks
- Creates uniform black color
- Increases resistance to oils, fuels, grease and water
- Increases viscosity and suspends aggregates
- Outstanding toughness and adhesion

Oil Spot Seal/Prime

- Quick drying formula
- Coats and promotes adhesion over oil, grease, gasoline or chemical stains prior to application of sealer
- Can be used over all types of hot patched areas or oil contaminated cracks
- Easy to use on any asphalt surface

Pourable Crackfill

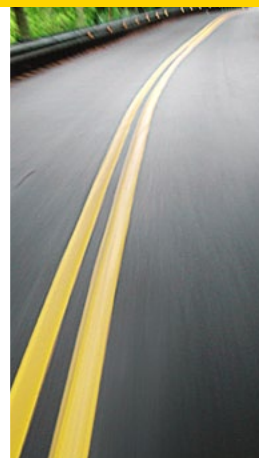

- Rubberized asphalt emulsion with greater flexibility formulated for filling narrow pavement cracks up to 1/2-inch in width
- Excellent flow properties and no pinholing
- Resilient characteristics that allow for cohesion, adhesion, and flexibility
- Ready to use on any asphalt surface

Alligator Crackfill

- Requires less labor and equipment than other repair methods
- Contains a unique blend of asphaltic emulsion, mineral fillers, glass fiber, ground rubber and plasticizer
- Formulated specifically for alligatored asphalt
- Ready to use on any asphalt surface

ProStripe Plus

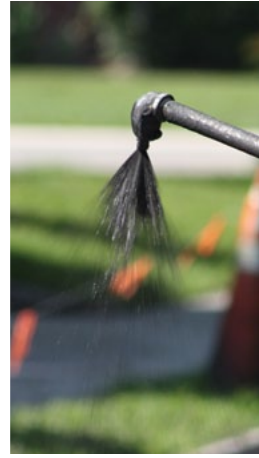

- Waterborne Traffic Paint
- Exceeds TTP-1952-B, D & E Federal Spec
- INCREASED: dry rate, solids, pigments & coverage
- REDUCED: fading, bleed-through & pavement cracking
- Lead free, low VOC's & non-hazardous
- Formulated specifically for airless striper application
- Easy cleanup with just soap and water

Citri-Pro

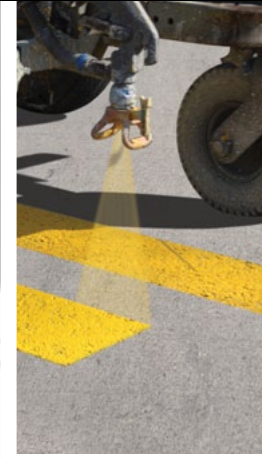

- Water-soluble, organic citrus-based concentrate cleaner.
- Dissolves alkyd or hydrocarbon thermoplastic, bituminous adhesive, crack fillers, asphalt, and coal tar and asphalt emulsion sealers.
- Simple cleaning methods; NO heat required. Reduces or eliminates typical laborious and dangerous scraping.

Zoom Flex High Performance Sealer Additive

- Superior decrease in dry time
- Superior increase in resistance to oils, fuels, grease and water
- Outstanding flexibility and cohesion
- 2X More latex than leading additives
- Enhances coal tar & asphalt emulsions
- Unique accelerated bonding provides washout protection
- Dries to a deep, black, uniform finish

PROSTRIP High Performance Traffic Paint

- Premium waterborne traffic paint
- Superior adhesion to asphalt and concrete
- Harder finish for better resistance to tracking
- Exceeds TTP-1952-E Federal Spec
- Lead free, low VOC's and non-hazardous
- Easy cleanup with just soap and water
- Special airless spray formulation
- Fast drying
